

## **Nancy Glass, PhD, MPH, RN, FAAN**

Associate Professor at the Johns Hopkins University School of Nursing and Associate Director Johns Hopkins Center for Global Health.

### **Education**

- PhD, University of Maryland, Baltimore
- MPH, Johns Hopkins University Bloomberg School of Public Health
- MSN, Johns Hopkins University School of Nursing
- BSN, Johns Hopkins University School of Nursing
- BS, Furman University

Dr. Nancy Glass is a nurse clinician, a researcher, a cross-discipline bridge builder, and an educator. At the School of Nursing, her research and practice expertise in public health, health disparities and intimate partner violence reflect the focus of the Johns School and The Johns Hopkins University on global health threats, particularly in developing countries. Her research work centers on clinical care and intervention in the areas of violence prevention and health disparities. With funding from the National Institutes of Health and the Centers for Disease Control and Prevention, she is conducting three major studies on intimate partner violence. As an associate director of the Johns Hopkins Center for Global Health - a new program that bridges the international work of the university's schools of nursing, medicine, and public health - and an Ambassador for ResearchAmerica's Paul G. Rogers Society for Global Health Research, Dr. Glass serves as a global health scientist-advocate. She also is a past-president of the Nursing Network on Violence Against Women, International. In ALL her global outreach roles, Dr. Glass works to educate policymakers, thought leaders, the media, and the public about the importance of global health research.
